

Storm/Lightning

In the event of a thunderstorm we advise you to seek low, open ground away from trees, and lie flat until the storm has passed. Queensland storms often pass over quickly. If you are at a Check Point, please follow the instructions of the CP Manager. This may include staying at the Check Point until it is safe to continue.

Emergency Evacuation Procedure

In the event of an emergency on the course, eg fire, severe storm, the course may need to be evacuated.

Marshalls will be sent to key intersections and will direct you to evacuation exits. We will arrange to transport participants from these evacuation exits back to QCCC for a roll call.

Participants are to follow the instructions of Check Point Managers and Marshalls. This may include not continuing the race.

To ensure everyone is safe, all participants must return to the Start/Finish area (QCCC) to be checked off before leaving.
